The most important thing to keep in mind when choosing a USB RS485 converter or USB RS422 adapter is if you need a standard or industrial strength USB to RS485 converter or USB to RS422 adapter and whether it needs to be isolated or non-isolated.. USB to RS422 is often used for extending a RS232 wire by using a USB to RS422 adapter at each end of a RS232 wire.. Since most computers do not have a RS485 or RS422 port, but they do have a USB port, you can use a USB to RS485 converter or USB to RS422 adapter to interface between your computer and your device.. All convert bi-directionally meaning they convert the data signal in both directions..
