## **GAME SET MATCH**

A player wins a **GAME** following the points scoring.

To win a **SET** they must win six games. However, they must also win by two games. For example, you cannot win 6-5 you must win one more to make it 7-5.

If the score is 6-6 you play a tie breaker. The player who wins 7 points wins, again they must be two points clear so it will continue until someone wins by two clear points.

A **MATCH** is the full game, a player wins by winning two out of three sets in the women's game or three out of five in the men's game.
